ABOUT ME

My name is Sergio, and **I have been programming for 5 years**. Today, my goal is to find a workplace where I feel comfortable and can contribute my knowledge and skills.

EXPERIENCE

Software Development Assistant | sep. 2023 - dic. 2023 | NTT DATA

- During this period, I contributed to a project for Iberdrola, focusing on the development of **microservices** programmed in **Java** and **JavaScript**. I handled data and performed queries using **MySQL**. Using an **agile methodology** for **efficient** and **flexible** development, I implemented unit tests with **JUnit** and **Mockito**. Additionally, I utilized tools such as **Sonar** and **Jenkins** to ensure code quality.

Software Developer| mar. 2022 - jun. 2022 | SERBATIC

- I developed an e-commerce website using **WebSockets** in **Java** with the **Spring** framework, mapping objects with **Hibernate** and storing data with a **MySQL** database.

PROJECTS

Gamemania

- An **e-commerce** website for selling video games online, with a **user authentication system**. Developed using **React**, it includes a **management section** with a CRUD system for platform administration.

Gamemania API

- **REST API** developed using **Java** with the **Spring** framework, using **Hibernate** to map objects and store data in a **MySQL** database.

EDUCACIÓN

Web Application Development | 2022 - 2023 | IES CLAUDIO MOYANO

- Developed web applications with **HTML**, **CSS**, **JavaScript**, and styling libraries such as **Bootstrap**.
- Participated in a group project using **PHP** and version control tools like **Git**.

Cross-Platform Application Development | 2020 - 2022 | IES CLAUDIO MOYANO

- Developed desktop and **Android** applications using **Java**, applying the **MVC** design pattern.
- Learned basic Unity concepts and programmed in **C++**.
- Enhanced knowledge of **MySQL** databases.

SKILLS

- Teamwork
- Proactivity
- Continuous learning
- Self-management skills
- Attention to detail
- Adaptability to change
- Verbal communication
- Analytical thinking
- Autonomy in learning

OTHER TECHNICAL KNOWLEDGE

- HTML5
- CSS (Cascading Style Sheets)
- TypeScript
- AWS (RDS, S3, Lambda)

LANGUAGES

- English
- Spanish
